President & CEO's comments

"The launch of Viaplay in the Netherlands last month has beaten all expectations, and was the primary contributor to the Q1 intake of 778k Viaplay paying subscribers. Q1 was also our fifth consecutive quarter of double-digit organic sales growth. Our Nordic profits were up 29% despite significant content investments, and we delivered a group operating profit even when including the investments in our international expansion. The recently signed distribution agreement with Tele2 in Sweden has led us to upgrade our full year 2022 Viaplay subscriber target, with Viaplay revenue growth set to accelerate and the group revenue growth target unaffected."

Our 10% YoY group organic revenue growth in Q1 was again primarily driven by Viaplay (39% of sales). Viaplay is our largest and highest growth revenue generator, which is why we are proposing to take the natural next step of becoming Viaplay Group. Viaplay sales were up 26% on an organic basis after 52% YoY subscriber growth. We added 778k Viaplay subscribers in Q1 and 1,635k YoY, to end the quarter with a total of 4.783k subscribers.

The continued growth in the Nordic Viaplay subscriber base was complemented by a significant acceleration in the growth of the international subscriber base. This followed the very successful launch in the Netherlands at the beginning of March. The Netherlands accounted for the majority of the 1,208k international subscribers at the end of the guarter.

Viaplay premiered 13 new originals in Q1, as well as extending exclusive coverage of key sports rights in existing and new markets. We will premiere more than 70 Viaplay originals this year, and even more of the high profile and long term sports coverage that we have secured. Combined with new multi-year deals with Hollywood and independent studios, this means that we have full visibility over our content-related cost base moving forward.

The newly signed distribution agreement in Sweden will ensure that Viaplay will be part of each of Tele2's pay-TV offerings moving forward. This had no effect on the Q1 results, but we are

increasing our year-end 2022 Nordic Viaplay subscriber target from 4.3m to 4.8m. Our Nordic revenue growth target of approximately 20% for 2022 is unchanged, with the growth now even more weighted to Viaplay rather than linear subscription revenues. We are not changing our year-end target of 2.2m international Viaplay subscribers at this time, or our 2022 group revenue growth target of approximately 28%.

Linear subscription and other revenues (34% of sales) were up 4% YoY on an organic basis, with the lower growth reflecting the inclusion of the Studios operations. The growth rate is expected to accelerate as pay-TV prices rise in line with the enhanced content offerings.

Advertising revenues (26% of sales) were down 1% YoY on an organic basis, and reflected the Winter Olympics coverage on rival channels, as well as the impact of the Ukraine crisis. The 2022 annual agreements have now been concluded at higher prices with stable volumes.

The YoY increase in the profitability of our Nordic operations was achieved despite our ongoing investments in originals and new sports rights. The losses related to the international expansion were in line with expectations. Our full year outlook is unchanged. Allente delivered the anticipated positive earnings contribution, and will benefit from the full run-rate post-integration synergies.

The SEK 595m of proceeds from the Danish court cases has further strengthened our financial position. Our expansion plan is fully funded and is now accelerating as we continue to add the planned new content rights and expand into new markets. The investments that we are making in our growth are reducing like for like group profits in 2022, before they rise again significantly in 2023.

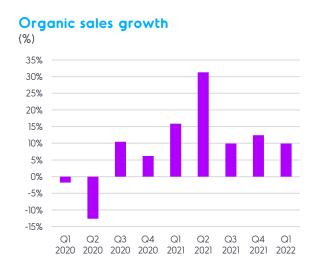

The humanitarian crisis in the Ukraine is a tragedy. We are doing all that we can to support the victims of the war through various group wide initiatives. This reflects our values as an organisation and our recently launched 5-year sustainability strategy, roadmap and targets, which are all about contributing to a sustainable future for all our stakeholders and societies.

Sales

Group

Organic net sales were up 9.9% when excluding changes in FX rates and divested operations, and primarily reflected the growth of Viaplay. Reported sales amounted to SEK 3,324m (2,982). Please see page 15 for a reconciliation of organic and reported sales growth.

1) The previous separately reported 'Other subscription' and 'Studios & other' have been combined into 'Linear subscription & other'.

Viaplay was the largest quarterly revenue contributor and accounted for 39% of Group sales. Viaplay sales were up 26% on an organic basis, and included SEK 91m of international sales. The total Viaplay paying subscriber base grew by 52% YoY to 4,783k subscribers. Viaplay added 778k paying subscribers QoQ, with 117k added in the Nordics and 661k in the international markets. The launch of Viaplay in the Netherlands was the main contributor to the international subscriber growth, and Dutch subscribers represented the majority of the 1,208k international Viaplay subscribers at the end of the period.

Linear subscription and other sales, which now include both the linear channel subscription sales and Viaplay Studios' external sales, accounted for 34% of Group sales and were up 3.9% on an organic basis. The reported sales reflected the fact that the Q1 2021 Studios sales included SEK 39m of revenues for NENT Studios UK Limited, which was divested in June 2021. Linear channel subscription sales grew in line with the previous quarter and will benefit from price increases for the enhanced content offering following the addition of key new sports rights.

Advertising sales accounted for 26% of Group sales and declined 1% on an organic basis, which reflected market share changes due to the Winter Olympics being broadcast on competing commercial channels, as well as lower commercial channel viewing and softer advertising demand due to the impact of the Ukraine crisis. The 2022 annual agreements with advertisers have now been largely concluded with increased prices and similar volume commitments. NENT Group's TV audience share was up in Norway and Denmark, and

down in Sweden, with the TV advertising markets estimated to have grown in Sweden and Norway but declined in Denmark. NENT Group's radio audience share was up in both Norway and Sweden, with the radio advertising markets estimated to have grown in both markets.

Operating income

Operating expenses increased by 20% to SEK 3,382m (2,814), which primarily reflected the international expansion of Viaplay, as well as investments in new sports rights and Viaplay Original productions.

Operating income before ACI and IAC amounted to SEK -49m (163) and included SEK -305m (-36) impact of the investments in the international expansion. When excluding the impact of the international expansion, operating profits were up 29% to SEK 256m (199). Operating income before IAC amounted to SEK 6m (210) and included SEK 55m (47) of associated company income, which primarily comprised the Group's 50% share in the earnings of Allente. Please see note 3 regarding Allente's financial performance and position.

The previously announced DKK 430m received in Q1 from TV 2 Denmark in full and final settlement of the Danish Court cases has been reported as an item affecting comparability in Q1 and amounted to SEK 595m, net of advisor costs. Total operating income therefore amounted to SEK 602m (210).

Net financial items and net income

Net financial items totaled SEK -19m (-23). Net interest amounted to SEK -16m (-17), of which SEK -3m (-3) related to interest on net lease liabilities. Tax charges amounted to SEK -100m (-32) and included a tax charge related to the SEK 595m of proceeds from the Danish court case settlement. Net income from continuing operations totaled SEK 483m (155). There was no net income from discontinued operations in the quarter, compared to SEK -10m of net income in Q1 2021. Sustainability

NENT Group's five-year sustainability strategy was launched in conjunction with the 2021 Annual and Sustainability report. The strategy is part of NENT Group's business strategy and includes three focus areas: taking climate and environmental action, advancing diversity and inclusion, and promoting wellbeing and ethics. The strategy and roadmap include new science-based emission reduction targets and climate action initiatives to help limit global warming levels in accordance with the Paris agreement. NENT Group's first Task Force on Climate-related Financial Disclosures report will also soon be published. The 2021 Annual & Sustainability report details the Group's performance against its previous three-year strategy, including the improved gender balance and diversity across the business and in its productions. NENT Group has been recognised as one of the "best companies globally for gender balance" and ranked 56th globally and 2nd in Sweden in an analysis of 3,895 publicly listed companies by Equileap, a leading organisation providing data and insights on gender equality. The 'Viaplay Original Talent Awards' were launched in Q1 to support film students and emerging talents in creating relevant and innovative content.

NENT Group has taken several actions in response to the war in Ukraine, in order to support the victims of the war and bring pressure to bear on the Russian government. NENT Group has activated its platforms and services in partnership with Save the Children & the Red Cross to raise money for the relief efforts. Russian content has been removed from NENT Group platforms; contracts and counterparties have been screened to ensure compliance with international sanctions; and agreements involving payments to entities in Russia

have been discontinued. The Group has also established a fast-track recruitment programme in Sweden for Ukrainian applicants, which has already resulted in Ukrainian candidates taking up positions at NENT Group.

Risks & uncertainties

Significant risks and uncertainties exist for the Group and the parent company. These factors include the prevailing economic and business environments in each of the Group's markets; commercial risks related to expansion into new territories; political and legislative risks related to changes in rules and regulations in the various territories in which the Group operates; exposure to foreign exchange rate movements; changes in the ability to access capital markets; and the competition for subscribers, content, and talent. The increasing shift towards online entertainment consumption and the Group's expansion also makes the Group a potential target for cyber-attacks, intrusions, disruptions or denials of service. The invasion of Ukraine by Russia in February 2022 has created adverse geo-political, market and other potential risks that can impact NENT Group. NENT Group is monitoring the situation closely and will act to mitigate any risks as far as possible and as they arise.

The Group has related party relationships with its subsidiaries, associated companies and joint ventures. All related party transactions are based on market terms and negotiated on an arm's length basis.

Alternative Performance Measures

The purpose of Alternative Performance Measures (APMs) is to facilitate the analysis of business performance and industry trends that cannot be directly derived from financial statements. NENT Group is using the following Alternative Performance Measures:

- Change in net sales from Organic growth, Acquisitions/divestments and Changes in FX rates
- Operating income before associated company income (ACI) and items affecting comparability (IAC)
- Operating income before IAC
- Net debt and Net debt/EBITDA
- Capital Employed and Return on Capital Employed (ROCE)
- Adjusted net income and earnings per share

Reconciliation of sales growth

Since the Group generates the majority of its sales in currencies other than in the reporting currency (i.e. SEK, Swedish Krona) and currency rates have proven to be rather volatile, and due to the fact that the Group has historically made several acquisitions and divestments, the Company's sales trends and performance are analysed as changes in organic sales growth. This presents the increase or decrease in the overall SEK net sales on a comparable basis, allowing separate discussion of the impact of acquisitions/divestments and exchange rates.

Organic growth, i.e. sales growth adjusted for acquisitions/divestments and changes in FX rates, amounted to 9.9% in Q1 2022.

Reconciliation of operating income before associated company income (ACI) and items affecting comparability (IAC)

Operating income before associated company income (ACI) and items affecting comparability (IAC) refers to operating income after the reversal of material items and events related to changes in the Group's structure or lines of business, which are relevant for understanding the Group's development on a like-for-like basis. This measure is used by management to follow and analyse the underlying profits and to offer more comparable figures between periods.

Reconciliation of net debt/EBITDA ratio

Net debt refers to the sum of interest-bearing liabilities less total cash and interest-bearing assets. Net debt also includes lease liabilities net of sublease receivables and dividends payable. Net debt is used by Group management to track the indebtedness of the Group and to analyse the leverage and refinancing needs of the Group. The net debt to EBITDA ratio provides a KPI for net debt in relation to cash profits generated by the business, i.e. an indication of a business' ability to pay its debts. This measure is commonly used by financial institutions to rate creditworthiness. A negative figure indicates that the Group has a net cash position (cash in excess of interest-bearing liabilities).

Reconciliation of Return on Capital Employed (ROCE)

Return on capital employed is a performance measure for operating income before items affecting comparability in relation to the capital employed within the operations. Operating income before items affecting comparability is the main profit metric that operations are responsible for, and is measured before interest and taxes. Capital employed is the sum of current and non-current assets less current and non-current liabilities, provisions and liabilities at fair value. All items are non-interest-bearing. Capital employed equals the sum of equity and net debt.
